

Laura Fejerman's webpage

Laura Fejerman is an Associate Professor at the UCSF Department of Medicine

The general goal of our research is to contribute to the understanding of how inherited and acquired factors affect breast cancer risk and mortality in women of Latin American origin.

Specific Projects

- Molecular Characteristics of Breast Cancer in Women of High Indigenous American Ancestry from Perú
- Genetic Ancestry and Breast Cancer Specific Mortality in Latinas
- Internal Chemical Environment among Mexican immigrants
- Genetic Ancestry and Breast Cancer Subtype and Progression in Latin America
